Environmental Regulations

All products by Arcas meet current EU directives. The Green Dot reflects the desire again, to contribute to environmental protection. Arcas products are regularly controlled by public testing institutes on environmental and certified with current test certificates. These can be requested if required.

Rohs Certificate = **R**estriction of (the use of certain) **H**azardous **S**ubstances

The RoHS directive 2002/95/EG restricts (with exceptions) the use of six hazardous materials in the manufacture of various types of electronic and electrical equipment.
